PROFESSIONAL SUMMARY

Motivated Full Stack Developer with strong foundation in Java, Python, C++, SQL, and modern web technologies. Experienced in building scalable full-stack applications using Spring Boot, REST APIs, and responsive frontend interfaces. Passionate about solving real-world problems through innovative technology, clean UI design, and efficient backend systems.

EDUCATION

Sri Krishna College of Engineering and Technology
B.E Computer Science Engineering

2024 – 2028
Coimbatore, India

PROJECTS

CONNECT – Farmer & Consumer Digital Marketplace

- Developed an AI-powered multilingual marketplace for direct crop selling and live auctions between farmers and consumers.
- Implemented GPS-based search, secure payments, SMS/voice alerts, offline support, and Agri-BOT assistance.
- Designed responsive dashboards for Farmer, Consumer, and Admin modules with mobile-first UI.
- Tech Stack: HTML, CSS, JavaScript, AI Tools, GitHub
- GitHub: CONNECT Repository

CareerGen – Career Recommendation Platform

- Built a full-stack web application that recommends careers based on user-selected skills.
- Developed REST APIs using Spring Boot and integrated them with responsive frontend for real-time recommendations.
- Deployed frontend on Vercel and backend on Render for public access.
- Tech Stack: Java, Spring Boot, HTML, CSS, JavaScript, REST API
- GitHub: CareerGen Repository
- Live: career-gen-frontend.vercel.app

Tickd – Task Management Web App

- Developed a modern task management web application with responsive UI and smooth animations.
- Implemented task creation, completion tracking, authentication, and dark/light theme support.
- Built reusable frontend components with optimized user experience for desktop and mobile devices.
- Tech Stack: React, Tailwind CSS, Framer Motion, Node.js, Express, MongoDB
- GitHub: Tickd Repository

Cartify – Full Stack E-Commerce Platform

- Built a complete e-commerce platform with product listing, authentication, cart, and order management.
- Integrated responsive frontend with backend APIs and database for seamless shopping experience.
- Implemented deployment using Vercel and Render with optimized API communication.
- Tech Stack: React, Node.js, Express, MongoDB, REST APIs
- GitHub: Cartify Repository

ThoughtNest – Full Stack Blogging Platform

- Developed a blogging platform with secure authentication and content management features.
- Implemented blog creation, editing, and user-based access control with responsive UI design.
- Integrated backend APIs and database for dynamic content handling and scalable architecture.
- Tech Stack: React, Node.js, Express, MongoDB, JWT Authentication
- GitHub: ThoughtNest Repository

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, Spring Boot, REST APIs

Database: MongoDB, MySQL

Authentication: JWT Authentication

Tools & Platforms: Git, GitHub, Vercel, Render, VS Code, IntelliJ IDEA, Postman

Libraries: Framer Motion, Lucide React

Concepts: OOP, Data Structures, Full Stack Development, API Integration, Responsive UI/UX

CERTIFICATIONS

Networking Basics Certification

Multi-Paradigm Programming with Modern C++ Certification

The Modern C++ Challenger Certification

Java Concepts Certification

Database and SQL Certification

C++ Training Certification

HTML & CSS Online Resume Builder Project Certification
